Audits

HACCP Audits | Food Safety Audits
Supplier Audits | Internal Audits

Food Fraud & Food Defence TACCP/VACCP

QMS Audits' Food Fraud and Food Defence Training explains the threats to our food chain.

Food Defence identifies and prevents an attack on your business.

BRC, SQF, FSSC22000 and each of the major retailers have significant supplier requirements to ensure the risks of food fraud and food defence have been identified and controlled.

Food Defence, think *needles in strawberries*, focuses on identifying potential threats to your business and how to prevent them.

Food Fraud focuses on substitution of food and packaging for economic gain. Think *normal honey being sold as Manuka honey*.

Failure to defend your business or to identify food fraud can have a large impact upon your reputation.

QMS Audits have developed templates which have simplified the management of suppliers and their products, while ensuring they fulfil SQF, BRC, FSSC22000 and retailer requirements.

As a class we work through the concept giving you examples before conducting a risk analysis. This is based on the CARVER + SHOCK method. We work through the requirements of your GFSI standard to ensure you are able to satisfy the requirements prior to your audit and importantly to ensure your site is adequately protected.

At QMS Audits we love training so much that we have designed a range of specialised courses, which will satisfy certification requirements as well as drive food safety and quality. We offer 3 options to study: In-House at your facility, in the Classroom and instructor-led Virtual Classroom.

Course duration: 4 hours

If you need any help or advice in booking this training, would prefer to pay over the phone or be invoiced, please call us on **1300 404 505**.

Price: \$495 +GST

Per person or ask us for group rates for In-House Training
