ISO 9001 | ISO 14001 | ISO 45011
Dairy, Fish & Meat | QANTAS & Spotless

Audits

HACCP Audits | Food Safety Audits
Supplier Audits | Internal Audits

Advanced HACCP Training

Extend your knowledge of HACCP

Day 1, Look at common food pathogens, considering what should be included in a hazard analysis. Consider other hazards and common CCPs, QCPs, their likely critical limits and other common controls as well as how to validate critical limits. Write up a hazard analysis and HACCP Audit Table based on a student's processes. Consider the design, implementation and review of monitoring records.

Day 2, look at standard operating procedures, how they should be written and how to ensure they are implemented and consistently followed. Walk through customer complaint investigation, (real!) root cause analysis, preventative measures and corrective actions. Students are asked to mark up an existing HACCP Plan from their organisation to ensure it is accurate, reflects all relevant hazards and confirm the correct assignment and validation of CCPs and QCPs.

Course duration: 2 days

This course has two units of competency: **FBPFSY5001** - Develop a HACCP-based food safety plan.

FBPFSY3003: Monitor the implementation of food safety and quality programs

QMS Audits Training is a Registered Training Organisation (ID 45344)

At QMS Audits we love training so much that we have designed a range of specialised courses, which will satisfy certification requirements as well as drive food safety and quality. We offer 3 options to study: In-House at your facility, in the Classroom and instructor-led Virtual Classroom.

If you need any help or advice in booking this training, would prefer to pay over the phone or be invoiced, please call us on **1300 404 505**.
